"LIFE WATCHMAN" HERE FOR BANQUET

Amidst the confusion on "What is brain death and what is death?" Dr. Paul Byrne is a voice of sanity and a spokesperson for those who are in danger of death, not from their obvious sickness but from processes invented to prolong one life while shortening that of another.

Do you wonder: ***Why can health insurance cover intensive care costs on a "brain dead" person? *How can a "brain dead" pregnant mother deliver a normal, healthy infant? *How can "brain dead" patients have normal body functions, including vital signs, if they are really dead? *Why does a ventilator work on someone declared "brain dead" but not on a corpse? *If "brain-dead" persons are not truly dead, are they alive?**

The PCUC 42nd Anniversary Banquet will be held on Thursday, October 27, at the Churchill Valley Country. See page 8 for your reservation form. We hope to see YOU there.

40 DAYS FOR LIFE FALL CAMPAIGN

**September 28-November 6
Pray! Fast! Keep the vigil!**

If standing for more than a few minutes is painful for you, you can "take a seat." 7:00 am thru 7:00 pm is the time to come and witness for LIFE. Shift managers will welcome you and give you a sign. If you are with a group,

you may want to pray together or you may choose to pray on your own. If you need information or you want to arrange to bring your church, call Nikki Bruni 412-926-9413 or email nbruni@40daysforlifepgh.com.

PRAYER, MUSIC, INSPIRATION AT KICKOFF

Join pro-lifers from all over southwestern PA for a time of prayer and worship to kick off the fall "40 Days for Life" Campaign (see related article on this page). **On Saturday, September 24 at 3:00 pm** we will come together at Phil's Parking Lot, 917 Liberty Avenue, downtown Pittsburgh, just up the street from the front of Planned Parenthood. The event will feature music by "Intent," the fine group that played at our spring kickoff rally and again at their concert just a few weeks ago.

Speakers include Bishop William J. Watersheid, Pastor Rick Paladin, Fr. Tim Kruthaupt, Pastor Shawn Kirkland and Rev. John Patterson.

Bring your spouse, your family, your pastor and your friends. Bring a chair if you wish to sit at this outdoor event. If you have questions or need directions, call 412-926-9413.

On Wednesday, November 2, 2011, **Angels' Place Pittsburgh** will honor their founder, **Mary Winter and her husband, Dr. Norbert Winter**, with the **Halo Award**. You may call 412-321-4447 for details and reservations for the Banquet at LeMont.

The **Angels' Place Halo Award** is given to men and women who have unselfishly used their own gifts to improve and advance the lives of mothers and babies.

Several times Mary said that the special awards should one day go to the husbands of women in the pro-life movement because they are our best supporters. PCUC is very pleased that finally this hope will be fulfilled as Dr. Norb Winter receives this special award along with his wife. Congratulations!

KEY NEWS ABOUT MARCH FOR LIFE

It's time to start planning for the March for Life on Monday, January 23, 2012, in Washington, DC. If you plan to attend the Youth Rally and Mass for Life at the Verizon Center and the DC Armory on the morning of the March for Life, this is a "heads up!" In 2012 the tickets for the Youth Rally will be distributed through your Diocesan Office. Be sure that your local leaders know whom to contact about distribution.

WHY IS THIS MAN STILL IN BUSINESS??

Steven Chase Brigham!
Remember that name, and call
Governor Tom Corbett 412-565-
5700 (Pittsburgh) or 1-717-787-2500
or you can email him at
governor@state.pa.us. Make another

call to your PA Senator and PA Representative. (partial list follows). Tell them to close Brigham's abortion mills as soon as possible.

Brigham's mill is at 320 Fort Duquesne Blvd., in the center of Pittsburgh's downtown "Golden Triangle."

According to Brigham's web site, he operates 15 abortion mills in four states, even though he no longer has a medical license in any state. The New Jersey Board of Medical Examiners suspended his license in 2010 because of his scheme of beginning abortions in NJ, where later term abortion is not legal and then transporting the women to Maryland to dismember and remove the dead babies.

Abortion practitioners Brigham has employed include an admitted sex offender, two convicted drug violators, a convicted income tax cheat, an abortion practitioner convicted of billing fraud, and several abortion practitioners who are unable to obtain hospital privileges. One man is 88 years old and has had a stroke rendering one arm useless. He is listed as the "physician of record" for an abortion in early August 2010 of a woman who was 33 weeks pregnant.

Local state officials should know about what happens in Brigham's offices. If we do not tell them, who will? If we do not persuade them to do the right thing to put him out of business, who will?

SENATORS IN SOUTHWEST PA

Brewster, Jim (412-380-2242) **Costa**, Jay (412-241-6690), **Ferlo**, Jim (412-621-3006), **Fontana**, Wayne (412-344-2551), **Kasunic**, Richard (724-626-1611), **Orie**, Jane (412-630-9466), **Pippy**, John (412-262-2260), **Solobay**, Tim (724-746-3762), **Stout**, Barry (724-225-5400), **Vogel**, Elder (724-774-0444), **Ward**, Kim (724-600-7002), **White**, Don (724-357-0151), **White**, Mary Jo (724-282-1234). They are not all pro-life, but we must believe they care for the welfare of women. They are all at home for the summer.

Our local state officials must know what happens in Brigham's offices. If we do not tell them, who will? If we do not persuade them to put him out of business, who will?

THANKS TO CHOOSE LIFE DRIVERS!

Driving with a **Choose Life** plate carries the bonus benefit of providing grants to local pregnancy support centers. This month four local agencies will

receive grants to assist them with whatever expenses loom largest. If you are thinking it's time to get your own Choose Life plate, you can call 412-531-9272 or go to the CL site, pachooselife@yahoo.com. You may visit the Choose Life website at www.pachoose-life.org.

As time goes by, you will see Choose Life plates in more and more locations. If you have a photo of your car with a CL plate, send it to hcindrich@pcuc.org. It could end up on the pages of a future PCUC Newsletter.

LOCAL REP = CATHOLICS FOR CHOICE

The April 5, 2011, issue of **Politico** has "*An Open Letter from the Catholic State Legislators to Our Colleagues in the US Congress.*" The letter tells Congress that they are "deeply troubled by current legislative efforts to defund Title X." They never mention how much Title X money

goes to Planned Parenthood or the fact that PP receives billions from taxpayers. They don't mention that PP is the largest abortion provider in the country and the world. They do not describe their organization, **Catholics for Choice** as a pro-abortion, very un-Catholic partner in doing PP's dirty work. We wonder why local state representative **Chelsa Wagner** signed this letter. We hope her constituents will call her office 412-343-2094 or 412-881-1005 and ask her.

Catholics for Choice has twice been condemned by the bishops' conference as a fraud. The group has never raised as much as a dime from practicing Catholics. When CFC held a workshop at PP in Collier County, FL, the Diocese of Venice called the event "an attempt to distort Catholic teaching to advance... (an) agenda that is offensive to Catholics." The message of CFC: "*You can be prochoice and Catholic*—carries as much credibility as saying you can be pro-genocide and Catholic."

"THE SHOT"

Depo-Provera is a long-acting progesterin hormone. It is injected into a woman's muscle every three months. It works by decreasing ovulation, by inhibiting sperm transport and by changing the lining of a woman's uterus.

Ethical concerns: By changing the lining of the uterus, Depo-Provera can cause an early abortion when conception does occur. **Medical side effects:** The results of two major world studies have shown that women who take Depo-Provera for two years or more before age 25 have at least a 190% increased risk of developing breast cancer.

-Depo-Provera may **reduce a woman's bone density. It may worsen her cholesterol level.**

-May suffer a **430% increased risk of developing cervical cancer** if receiving injections for five years.

-Can have a much **higher rate of contracting the AIDS virus** if their partner is infected, with one study showing a 240% increased risk. *Source: What a Woman Should Know About Birth Control - www.onemoresoul.com - 2011.*

KEEP OUR BILLBOARDS ON THE ROADS

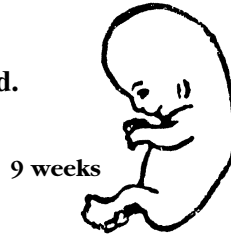

This beautiful lady and her message are saving lives all over the

country. The people who track calls to pregnancy support centers from areas where pro-life billboards are installed tell us that the message is effective and lives are saved. Only YOU can keep the message on the roads. Sites change bi-monthly. Sometimes the photo changes, but the message remains the same. Please send your generous donation to **PA FOUNDATION FOR LIFE, BOX 14721, PITTSBURGH, PA 15241.**

WELCOME NEW BOARD MEMBERS

PCUC has been blessed with two new members for our Board of Directors. These women are activists who already serve the needs of mothers and babies by their generosity of hand and heart. Nikki Bruni (with Beth Svirbel) is the coordinator of "40 Days for Life/Pittsburgh." Her tireless planning, organizing and publicizing our vigil brings hundreds of men and women from churches of many denominations to witness and pray in front of Planned Parenthood in downtown Pittsburgh.

Mary Anne Mulkerin (with Mary Catherine Scanlon) is a member of Missionaries of Evangelium Vitae (MEV), a group that is constantly finding new and more direct ways to offer alternatives to abortion-minded women. Her vigilance in the city neighborhood where she lives helps to make concerned citizens more aware of how their elected officials operate with regard to the preborn child and his mother.

CITY REPEALS BAN ON LEAFLETING

By Kathy Ramsey

As of August 15, 2011, Ordinance 601.02 of the City of Pittsburgh has been repealed and any person(s) wanting to leaflet cars or distribute leaflets within the city may do so without the fear of being fined for leafletting or littering. I want to thank **Al and Sally Brunn** who first contacted the **American Center for Law and Justice** and asked me to do the same. We want to thank the ACLJ and their attorney **Ed White** who did an excellent job of proving that this ordinance was unconstitutional as it went against both the First and Fourteenth Amendments and should be repealed.

The Judge for the U.S. District Court of Western PA, Judge Cercone, never ruled on our case, but he did agree that the ordinance infringed upon free speech. He ordered that we come to an agreement with the City of Pittsburgh. That agreement was that the city would repeal the ordinance in its entirety and pay our lawyers \$35,000, which it did.

ABORTION STATS FOR MAGEE-UPMC

Often when we publish abortion statistics from the PA Department of Health, people are surprised and disappointed to learn that Magee-Womens Hospital of UPMC is one of the culprits. It is unfortunate that current events will make it more difficult for women to have a real choice as to where they receive obstetric/gynecological care.

Following are the numbers from the latest report. We can add injury to outrage when we know that Magee received state appropriated funds (your taxes) to fund its programs.

CORPUS CHRISTI RESPECT LIFE DINNER

You're invited to Corpus Christi's Annual Respect Life Dinner on **Saturday, October 1** at 5:30 P.M. in the Parish Hall (8th & Market). Cost for the evening is **\$10.00**, including a scrumptious stuffed **Chicken Breast Dinner**. Keynote speaker is local attorney **Brad Tupi** (left), who has authored talks and papers on the role of Christianity in the founding of the United States. The theme of this year's

keynote is *Abortion in the Context of American History*. We will also have updates from **People Concerned for the Unborn Child** and the **Diocese of Pittsburgh Department for Human Dignity**.

Tickets will NOT be available at the door. Cut-off date for purchasing tickets is Sunday, September 18. For additional information and/or dinner tickets, contact Joe Krol 412-751-5493, Mike Kochman 412-678-5992 or the parish office 412-672-0765.

A MOTHER WHO SAID "NO!"

What could be more dreadful than to be told you have breast cancer? It happened to my friend Stella when the only treatment for the cursed evil was cobalt treatments.

While Stella was having cobalt treatments, she learned that she was pregnant. Now the most wonderful gift a mother could want and the most dreaded consequences

were facing this young woman. When she visited her doctor, the first thing he said was, "You'll have to have a legal abortion." Stella said "No!" The doctor said, "You don't know what will happen to this baby." Stella still said "No!" Her doctor sent her to her surgeon. He said, "You must have a legal abortion." Again she refused. Her surgeon passed her to a third doctor who said he would see her through her pregnancy. He, too, said, "I agree with your other doctors. You should have an abortion." Stella's pregnancy proceeded.

At the end of nine months, while everyone in the delivery room awaited the worst, the most beautiful baby girl came into the world. She was perfect in every way, the most wonderful child a mother could want. When Stella told her doctor about her baby, he said, "You are one in a MILLION! It is a miracle that your baby was born as she was."

As years went by, Stella's little girl grew up and went to Carnegie-Mellon University. She is now an engineer with a prominent national corporation.

Some time later Stella told a prominent physician about her illness, her pregnancy and the outcome. When she finished, he said, "I don't believe you. It's impossible that you had all that radiation and your child was born not maimed, disfigured or alive at all." She shrugged. Then he asked her, "Who was your doctor?" When she told him, he said, "I take it all back. Your story is nothing short of miraculous."

RACHEL'S RETREAT

Rachel's Vineyard is having a "Post-abortion Healing" weekend, October 7-8-9 for women and men. It is interdenominational, and it will be held in the Pittsburgh area.

You are welcome to ask about scholarships for the cost of the weekend. For additional information and reservations, call Abi Kolle at 412-977-9521. **All calls are confidential.**

PREGNANT WITHOUT PERMISSION

It is a common phrase in China. In villages, each woman of childbearing age is regularly sonogrammed. If she is pregnant without permission from the government, an arrest is made and an abortion scheduled.

The concept of "permission" has been recommended by some U.S. citizens for this country. A memo dated 1969 indicates this has been a goal of population controllers for decades. Call the office and we can mail or fax you a copy of the memo. A well-informed citizenry will not be fooled.

WORLD REACHES 7 BILLION

"How can there be too many children. That is like saying there are too many flowers."

Mother Teresa

A press release by the United Nations Population Fund (UNFPA) states that the world's population will reach 7 billion people on October 21, 2011.

According to Population Research Institute President Stephen Mosher, the release implies a desire for more population control. Mosher will do what he can to stop it.

Mosher's words come to fruition when we hear that UNFPA's Executive Director Dr. Babatunde Osotimehin reveals that "a world of 7 billion is both a challenge and an opportunity. Globally, people are living longer, healthier lives and choosing to have smaller families." But Osotimehin adds that "the population projections underscore the urgent need to provide "safe and effective" family planning to the 215 million women who lack it.

Notice that she does not say that they want it or need it. No doubt Planned Parenthood has their ears to the ground, already listening to the cash registers ringing with profits even beyond the billions they now collect. [Ed.]

BOOK REVIEW

Power Over Pain: How to Get the Pain Control You Need

by Eric M. Chevlen, M.D. and Wesley J. Smith

Steubenville, Ohio: International Task Force, 2002; 236 pages

Reviewed by David E. Capan

Many readers of this newsletter are probably familiar with the name of Wesley J. Smith, a prominent pro-life lawyer. But this is probably not the case with Dr. Eric Chevlen, who is nonetheless an internationally-known expert on pain control, and who apparently still practices in Youngstown, Ohio.

One reason for reading this book is that it can serve as a useful tool to assist those in chronic and/or severe pain in their potential vulnerability to the siren song of the “death with dignity” crowd to “mercifully end their needless suffering”, as they like to put it.

Since religion is important to many readers of this newsletter, be aware that this book approaches the subject of pain control strictly from a medical standpoint. Supernatural aspects such as miracles or redemptive suffering are beyond its scope. However, this in no way detracts from its usefulness on the natural level. Dr. Chevlen, who is Jewish, does have an interest in religious questions, as evidenced by his occasional contributions to the ecumenical journal *First Things*.

Although the book indicates joint authorship, clearly most of it is Dr. Chevlen’s. Of the numerous vignettes sprinkled throughout the book, I believe all but one or two are his. Presumably Mr. Smith contributed the chapters on hospice and health insurance.

Readers of this book will learn many things, some of which run counter to common belief. Perhaps the most prominent example is the repeated insistence that opioids in general, and morphine in particular, are not addictive at any dosage as long as they are used to properly treat pain. Dr. Chevlen devotes a whole chapter to morphine, evidently because so much about it is misunderstood. He also distinguishes between addiction and dependence, and discusses side effects of various drugs, and takes these and other factors into account in calibrating which drugs and what doses are optimal in any given case. He recognizes that every patient is unique, that what he does is as much an art as a science, and that persistence and flexibility are crucial when treatments at first do not work. The overarching theme, suggested by the title, is one of hope – most pain victims, properly treated, need not live in agony.

For those in need of chronic pain relief, or who just want to know more about it on a lay level, this book would seem to be just what the doctor ordered.

BIRTHRIGHT WALK-A-THON

Rain or shine, the Walk-a-thon to benefit the programs of Birthright of Pittsburgh will take place on the Schenley Park Oval on Saturday, October 1, from 11:00 am – 2:00 p.m. There will be refreshments for all, and at least eight great gift baskets will be raffled. Call 412-621-1988 for more information. It’s a great outing for families with children.

LETTER FROM THE PRESIDENT

WHILE...

If you read any magazines or even the newspaper, you are constantly reminded of the multitude of wonderful things you can accomplish WHILE you do something else. Cut coupons WHILE you watch television; listen to the newest best seller WHILE driving to your vacation. Do a load of laundry WHILE you clean the bathroom. Make dinner in the slow cooker WHILE you do the shopping.

During the summer after seventh grade, I read *The Diary of Anne Frank* WHILE I babysat the kids across the street. Books can change us. I kept thinking, “What were the people of Holland doing WHILE this ordinary Jewish family were being taken to the concentration camps? All but Mr. Frank would be killed, including Anne.

And the answer came in an article on the new best seller, *In the Garden of the Beast*. WHILE the Holocaust raged in Europe, most people just went around trying to get through a difficult time; they worked at their jobs, fed their kids, celebrated the holidays, read, slept, worried—things WE do every day WHILE the horror of abortion kills one out of every three American children.

And you know the question will be asked. When all the blinders come off and the truth is finally stated loud and clear, our generation is going to hear, “Gram, we read about *Roe v Wade* in class today. What were you doing WHILE all those babies were aborted and died?”

Here’s what we can do WHILE others choose to ignore what’s happening WHILE we pass through this age. WHILE the kids are in school, WHILE you’re on your lunch hour, WHILE your friend is doing some shopping, come to Planned Parenthood and pray during *40 Days for Life*, starting September 24 at 3 p.m. in downtown Pittsburgh near Planned Parenthood (933 Liberty Avenue). This works! It saves babies and closes abortion mills; it works. Come with your church, or come alone. Come anytime, any day, 7 a.m. to 7 p.m. There will be someone there to pray with you, guaranteed.

Then pray when you wake up in the middle of the night, especially in the early morning of Tuesday, Friday and Saturday, WHILE a frightened young mother is deciding what to do, wondering who will help her. Those are the abortion days at Planned Parenthood, which has become a very wealthy “non-profit” organization.

More to do WHILE we join forces to defeat the culture of death this fall: Fast WHILE you don’t want to fast. Pray WHILE you wait for the light to change. Witness WHILE your friends ask you what you’ve been up to. Tell them. We’re going to win this fight one heart at a time. Tell everyone **1-800-395-HELP**.

Leave that number everywhere, stating that there is no reason or need for abortion any more. Find a million ways to be pro-life WHILE we go on with our lives.

WHILE the others ran and hid, Mary, His mother, John, Mary, wife of Clopus and Mary Magdalene stood and prayed at the foot of the Cross. They knew there was nothing as important as what they were doing WHILE they witnessed and prayed. And death was defeated. We must do the same WHILE we can, right now.

Beth
